

Sustainable Business Council TISFD Preparer Forum

Helping shape the future of social sustainability disclosure

The SBC TISFD Preparer Forum brings together practitioners interested in understanding and applying emerging approaches to social sustainability disclosure.

As an Alliance Partner of TISFD and a contributor to TISFD's APAC engagement, SBC provides a pathway for New Zealand businesses to engage with global developments while helping ensure Aotearoa perspectives are reflected in the framework's evolution.

What is the forum?

A quarterly peer-learning forum exploring social sustainability disclosure through the lens of the Taskforce on Inequality and Social-related Financial Disclosures (TISFD).

The forum provides a space to discuss emerging thinking, share practical experiences, and explore how social issues can be incorporated into business decision-making, risk management and reporting.

What participants can expect

- Quarterly practitioner discussions (90 minutes)
- Updates on emerging TISFD developments and guidance
- Early access to selected TISFD materials and beta framework components, where available
- Opportunities to provide feedback on the practical application of the framework
- Peer learning with organisations facing similar challenges and opportunities
- A channel to share New Zealand perspectives and real-world experience with TISFD

Why participate?

- Stay ahead of emerging disclosure expectations
- Build organisational capability on social sustainability
- Better understand social risks, opportunities and impacts
- Learn from peers and global developments
- Influence the evolution of the TISFD framework and its relevance for New Zealand businesses

Who should attend?

Leaders and practitioners working in sustainability, ESG, risk, finance, strategy, people and culture, procurement, reporting or stakeholder engagement.

This Forum is exclusive to SBC members.

Commitment: Four 90-minute forums per year, with optional opportunities to contribute to pilots, testing and related SBC social sustainability initiatives
